Subject: ACC RGC items

Kevin,

On behalf of the Bartlett Cocke management team here on the ACC RGC project, we would like to take this opportunity to thank you and all of Pro Steel. Your efforts to not only meet but beat our delivery dates for all the phase II structural steel placement on short notice was exemplary. We would also like to thank Jesse and his crew for their corporation in working with Mtech to lay out and install central plant support steel where it needed to go. Your total company effort will go a long way to helping us meet our phase II completion date.

Thank you all again!

Respectfully,

Joe Murphy
